IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicants : Daniel Aeschlimann et al.
Application No. : 10/680,000
Filed : October 6, 2003
Confirmation No. : 4529
For : FUNCTIONALIZED DERIVATIVES OF HYALURONIC ACID,
FORMATION OF HYDROGELS IN SITU USING SAME, AND
METHODS FOR MAKING AND USING SAME
Group Art Unit : 1623
Examiner : Not Yet Assigned

New York, New York

All documents cited herein were either previously submitted by applicants in an Information Disclosure Statement or cited by the Examiner in parent United States Application No. 09/156,829 ("the parent application"), from which the above-identified application claims priority. Pursuant to 37 C.F.R. § 1.98(d), applicants have not enclosed copies of the documents. However, applicants stand ready to provide copies at the Examiner's request.

This Statement is submitted more than three months from the application filing date but before the mailing date of the first Office Action on the merits. In accordance with 37 C.F.R. § 1.97, submission of this Statement requires no fee. However, if for any reason a fee is due, the Director is hereby authorized to charge payment of any fees required in connection with this Information Disclosure Statement to Deposit Account No. 06-1075. A duplicate copy of this Statement is transmitted herewith.

Applicants further request that the cited documents be (1) fully considered by the Examiner during the course of examination of this application, and (2) printed on any patent

issuing from this application. Additionally, applicants request that a copy of Form PTO-1449, as considered and initialed by the Examiner, be returned with the next communication.
